

FOR HOMEOWNERS

# TRUEFLOAT

**YOU WORKED HARD TO GET A BEAUTIFUL  
PLACE ON THE WATER. NOW IT'S TIME TO  
SIT BACK AND ENJOY IT.**

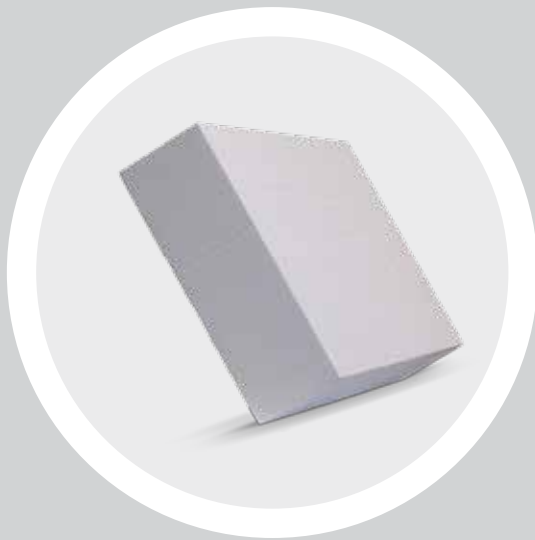

It's easy to build your own floatation blocks, docks,  
boats and rafts.

# CUSTOMIZE YOUR FLOATATION TO YOUR EXACT SPECIFICATIONS, FROM A SMALL SUN-TANNING RAFT, A DIVING WHARF FOR THE KIDS OR A SPACIOUS DOCK.

Made from Expanded Polystyrene (ESP) right here in Atlantic Canada, TrueFloat gives your rafts, docks and wharves the lightweight buoyancy they need to stay comfortably on the water's surface.

## TRUEFLOAT CAN PROVIDE YOU WITH HIGH-QUALITY FLOATATIONS FOR:

- **Variety of sizes:** Standard TrueFloat blocks are 2' x 4' x 8' but custom sizes are available upon request.
- **Strength and durability:** TrueFloat will last for many years if protected with dock framing and removed from the water annually to allow drying.
- **Numerous uses:** Homeowners love that TrueFloat can be made into flotation blocks for docks, wharves and more.
- **Design recommendation:** When installing TrueFloat, maintain space between the blocks for water displacement to ensure a stable dock.
- **Ideal for use within:** lakes, ponds, rivers and oceans.

### LOWER ENERGY COSTS. LONGER COMFORT.

We believe in helping building owners save as much as possible. That's why we designed our products to reduce heating costs and protect the integrity and long-term comfort of both commercial and residential buildings.
